FIGHT BACK FOR BRITAIN!

20p

ISSUE 80

AIDS: THE NEW BLACK DEATH

THE Government has refused to stop the thousands of potential AIDS victims from Africa who are pouring into Britain. AIDS is perhaps the most dangerous health threat to mankind since the medieval Black Death. Britain already has 30,000 victims of this deadly virus, but the Tories have refused to stop the influx of infected Blacks which will make things even worse.

The new threat came to light when the British High Commissions in Zambia, Uganda and Tanzania warned Health Department officials of the frightening AIDS epidemic sweeping Africa.

Latest World Health Organisation figures show that millions are already infected. 2,500 have died from the disease in Uganda alone, where 30% of the entire population is infected in the south of the country. Over 6% of the total populations of Tanzania and Zaire are also AIDS carriers. Very few are homosexuals, in fact nearly half of the victims are women. With the sexual promiscuity usual among these people, the disease is spreading like wildfire.

THREAT TO BRITAIN

The threat to Britain comes from the fact that our taxpayers provide subsidised university places here for many thousands of African students. The High Commissions warned that more than 10% of these students coming to Britain for the start of the university year are AIDS carriers.

The government has been urged to deal with this appalling new threat by introducing blood-tests for the AIDS virus for Coloured Immigrants coming to Britain from Africa, but it has refused to do anything.

The excuse given is that it would be "impractical", but this is a lie. India has just announced that all foreign students going to study over there must be screened for AIDS before they are even allowed in, because most of them come from Africa.

So Thatcher and her Health Minister are asking us to believe that our Health Service is more primitive than that of India. Now although Tory cuts have caused terrible damage to the NHS, this is obviously nonsense.

FEAR

The real reason for the government's refusal to act is the fear that the compulsory screening of Blacks for AIDS would be seen as "racialist". After all, more than 2 MILLION Americans now carry AIDS, so multi-racialists would argue that visitors from the U.S. should be screened as well. Since the disease came to Britain from the U.S.A. and is still being spread by infected American tourists, this would be a very sensible step. But Thatcher dares not take it for fear of offending her American masters.

In fact, only 1% of American AIDS victims are normal Whites. It is common knowledge that the deadly disease is also known as the "Gay Plague", but the media have been trying hard to protect promiscuous homosexuals from justifiable public hostility by pointing out that a growing number of AIDS victims, especially in the U.S. are heterosexual. So the press have hushed up the fact that most of the normal victims in the States are Black.

According to the U.S. Centre for Disease Control, 41% of all their known AIDS victims are Coloured. But since over a quarter of victims do not even report the disease, and since three-quarters of these are Black, the truth is that over half of all U.S. AIDS cases are among Coloureds. Many of these people are heterosexual drug addicts, and in many areas between a third and a half of the victims are women.

Drastic action is needed now to preserve future generations of Britons.

PLAGUE.

Despite the media campaign to convince us that "all sorts of people get AIDS", the truth is that the great majority of victims are homosexuals or drug addicts who have shared dirty syringes with infected homosexuals. And in fact the only significant incidence of AIDS in heterosexuals is among American and African Blacks.

So resolute action by the government could still confine this truly terrible plague to degenerates and to foreign Blacks who could easily be kept out of the country. But unless something drastic is done at once, it will get out of control. If the government continues to do nothing, the then British people themselves must act.

If the health of our local communities and our children is threatened by militant pro- homosexual propaganda and activity; by drugs-pushers, and by inter-racial sex, then all Britons have a duty to do whatever they can to discourage these evils.

Plot Against the NF

ATTEMPTED MURDER. That is the only phrase that can be used to describe the attack on the National Front launched by the corrupt "British" State earlier this year. The N.F.'s influence among our Nation's youth, among White communities under threat from creeping multi-racialism, and in particular Ulster, has grown steadily over the last two years. So it was inevitable that the State would try to disrupt our growth and to break up the N.F. before our influence could be turned into real political power.

In order to do this, a two-pronged attack on the N.F. was launched by Maggie Thatcher's political police - the Special Branch - and by their colleagues in the even more shadowy M.I.5. We have faced heavy external pressure, including disruption of our post and telephones, financial

TEN PAGE SPECIAL EDITION

Editorial

European Plague

THE UGLY face of European nihilism has shown itself again in recent weeks. Serious disorder broke out after England's football match with Sweden. This unfortunately included English "fans" seriously attacking a group of young Swedish Nationalists who were on their way to watch the game. And a few days ago a 19-year-old White Londoner was stabbed to death by a mixed-race gang of football thugs.

As our readers know only too well, it is usually our movement which gets blamed for this moronic behaviour, generally unjustly, although the Bulldog "NF invades Switzerland" type stigma was to some extent the result of an "own goal" by some of our own former officials.

This moronic and nihilistic attitude and behaviour is a threat to the solidarity of European nationalist groups, and to the unity of the European family of nations. This being the case, National Front News suggests that officials of the National Revolutionary movements of Europe should investigate ways of combatting this disease, possibly through a pro-European educational campaign aimed at the terraces.

DECADENT

Football hooliganism is the inevitable product of the soft and decadent society in which we live. Politicians, the media and neo-Marxist teachers alike have all been working for years to destroy any sense of pride in, and belonging to, the Nation. Since young men need a focus for group identity, the vacuum left by the destruction of such healthy feelings can be filled by juvenile and obsessive "loyalty" to a mere football team.

The kind of intense "loyalty" which leads to the now all too familiar outbursts of nihilistic violence has been deliberately encouraged for years. There are two reasons for this. First, such hysteria makes for bigger profits on the turnstiles.

SAFETY VALVE

Secondly, there is also little doubt that certain sections of the Establishment, including politicians and some police chiefs, believe that football violence is a useful safety valve. "Better to have young Whites kicking hell out of each other," goes this school of thought, "than leave them with the energy to question, challenge and fight our System. Better to have them fighting with Frogs, Wops and Krauts than opposing us".

It is time for British Nationalists to realise what is going on and to have the courage to condemn this mindless violence and the anti-European bigotry that fuels it.

And it is time for us to proclaim proudly that far from CAUSING football violence, Nationalism, which gives young people a constructive focus for their loyalty and energy, is in fact its only CURE.

HELP BUILD NATIONAL FRONT NEWS - HELP BUILD THE NATIONAL FRONT.

N.F. News is the foundation on which the National Front is being built. The process of producing and distributing the paper will automatically help to create the efficient and disciplined Nationalist organisation which Britain so badly needs.

But such an organisation can only make real progress if it sinks strong roots into our national community. And we can only do this if **N.F. News** gets regular "feedback" from its readers. That's why we want to hear from YOU.

Let us know how an issue discussed in **N.F. News** is relevant to your factory, school or community. Let us know if the capitalist press tries to hush something up in your area. It doesn't matter what it is, whether it's a race riot or a dangerous leak from a chemical factory, write to us and we'll give it the publicity it deserves.

Write to: **The Editor, P.O. Box 41, Norwich, Norfolk, NR3 2AH.**

Cultural Revolution

Dear **NFN**,

I have just read **The Political Soldier** by Derek Holland and was deeply moved. I think that all good Welsh (NF) Nationalists should learn to speak Welsh. Evening classes do not cost a lot and are very cheap for the unemployed like myself.

Welsh is the oldest living language in Europe, but it is being **killed** by the State. The NF in Wales must work to show the Welsh people that simply loving their language is not going to save it. Our members here must learn to speak Welsh and show the people that only the National Front can save their language, pride and culture.

This is not the main point of the book, but it was a very important one for me, as I will now be going to evening classes to learn to speak my own national language. I hope that all Welsh NF members who cannot already do so also make the effort to learn Welsh.

I hope that you will print this letter as in a small way it may help to save the beautiful Welsh language and our great culture.

My letter is about Welsh, but Derek's **The Political Soldier** is not. It is a book which I think every British and European Nationalist should read now!

Yours,
S. McCullough,
Cardiff,
Cymru.

Israeli master-race?

Dear National Front News,

I think it would be constructive if you re-printed this small newspaper clipping from the **Sun**. By the way, I didn't buy the paper, I took the cutting from a copy in my Doctor's surgery. Keep up the boycott and picketing at Wapping.

"Mums were yesterday urged to work for Israel - and have four babies each.

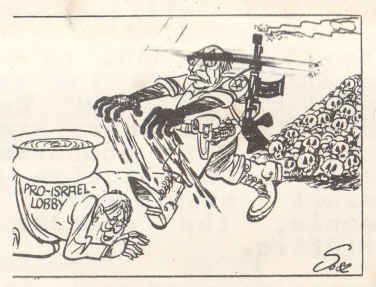
Premier Shimon Peres called for bigger Jewish families to offset the rising Arab birthrate in the country.

A report says that more than half the babies born in Israel are Arab. And by the year 2000 they will make up 43% of the population - unless Jewish families get cracking".

Obviously the terrorist murderers and child-killers of Israel aren't quite annihilating enough Palestinians for their liking.

Meanwhile whilst we're on the subject of the **Sun**, the Press Council recently ruled that the **Sun** was alright in calling an Arab a Pig. Does that mean that I can call Murdoch and his friend Maxwell an Australian Pig and a Jewish Pig without getting done?

Yours in resistance,
NGA machine minder,
Southwark.



cont. from Page 1

attacks and DHSS harassment.

Hand in hand with this has gone a campaign of internal subversion by reactionaries, gossips and other malcontents, stirred up and manipulated by at least one police agent.

Fortunately their attempt to create a widespread split in the National Front was frustrated by the loyalty of the vast majority of our units and militants to the ideology of Revolutionary Nationalism and also to the present constitution of the N.F. Only a handful of units have allowed politically juvenile attachment to individuals to lead them to break from the N.F. and join the rival organisation set up by the reactionaries.

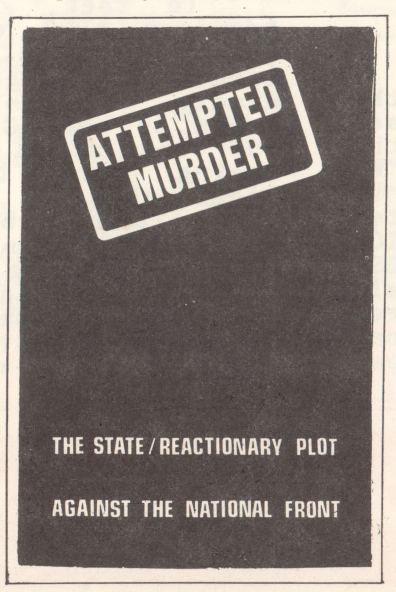
HOSTILE RIVAL

This splinter faction calls itself the N.F. "Support Group", but don't be fooled: it does **NOT** support the National Front. It is a hostile rival with its own membership cards, its own paper and its own unelected leadership. These people are still trying to use the National Front's name to con money out of the public, but their little group has **NOTHING** to do with the genuine N.F.

OVERDUE IMPROVEMENTS

The problems caused by this rival group are confined to a few areas, so the overall effect of the State's attempt to wreck the National Front has in fact been to force us to make some long overdue organisational improvements. In particular, we have speeded up our de-centralisation programme and are doubling the frequency of **N.F. News** to fortnightly as of this issue. As the old saying goes: "blows which do not destroy us make us stronger".

But although the National Front has survived and gained valuable experience from this campaign of subversion, it is essential that every British Nationalist knows what happened. How did the State and a tiny clique of "national Tories" come very close to neutralising the N.F. and destroying Britain's last hope? It's all in the 80 page statement of facts **Attempted Murder - The State/Reactionary Plot Against the N.F.** produced as a **Nationalism Today** special. Complete with pictures and documentary evidence, this well-researched expose of subversion and corruption takes you behind the scenes and tells the full story.



It makes exciting and shocking reading and is already an N.F. best-seller, but the really important reason for publishing it is to ensure that all N.F. members and supporters find out just how determined the State is to stop us, just how dangerous reactionaries are to our organisation, and what we can do to ensure that such a thing can never happen again.

By learning from the past in this way, the National Front can look with confidence to the future. They haven't stopped us, our struggle continues!

Copies of **Attempted Murder** can be obtained from your local N.F. unit or from **Burning Books, 50 Pawsons Rd, Croydon, Surrey.** Special bargain price to our readers of just £1 including post and packing. Don't miss this stunning book. **Order today!**

FRONT LINE ACTION

Belfast

THE N.F.'s greatest surge forward in the last year has undoubtedly been in Ulster. With the help of a minibus load of "mainland volunteers", local activists sold 5,000 copies of **N.F. News** in just one week at the height of the marching season. And even with the main parades over and a lot of work having to go into the Ulster shop, our Ulster N.F. News sales teams are shifting more than 2,000 copies every issue.

The Ulster bookshop, **Beacon Books**, has now opened in Templemore Avenue in staunchly Loyalist East Belfast. It sells a growing range of N.F. and Loyalist material, including **White Noise** records and t-shirts. It is already becoming the focal point for the **N.F.N.** sales teams which are springing up all over Belfast and throughout Ulster.

Weekly or even daily media coverage of the growing N.F. presence has become the norm. On September 14th the **Sunday News** published a half page story about N.F. Directorate member John Field's move to Ulster and the visit of National Front Chairman, Nick Griffin, and Deputy Chairman, Graham Williamson, to the nation. A few days later, the **Sunday World** printed a half-page review of our booklet **Attempted Murder.** Even the hostile hack Jim Campbell found the report so exciting and convincing that he quoted from it at length.

The biggest coverage of all has been a centre page interview with John Field in the **Newsletter**, one of the biggest circulation papers in Ulster on 29th September. We also got a double page spread in the Communist Party paper **Unity**, which concluded that the National Front poses a "very serious threat" in Ulster.

Edinburgh

This leaflet produced by Edinburgh N.F. helped to mobilise hundreds of angry Loyalists, ex-servicemen and local residents in opposition to a provocative Republican parade through the Scottish capital. The pro-IRA marchers were so frightened that they decided to abandon their offensive march well before the end of the route. A very wise decision and another victory for Scottish Loyalists and the National Front.

'IRA Off Our Streets!'

IRA MURDERERS ARE PARADING ALONG OUR EDINBURGH STREETS!

Today, Saturday 6th September, supporters of the murdering IRA are marching through the streets of Niddrie in Edinburgh behind the tricolour flag and a Republican flute band.

They will be collecting funds for their terrorist cause and costing Edinburgh rate-payers the price of their police protection. Edinburgh councillors voted 3-I to allow such an obscene display of support for Britain's murderous alien enemies to go on-though the IRA cowards have slaughtered thousands of British soldiers, police and civilians. Such marches have frequently led to severe public disorder in many other British towns through the rightous fury of local folk.

DON"T LET THEM GET AWAY WITH IT-PROTEST AT THE J.KANE CENTRE AT IO.15am AND WRITE TO YOUR LOCAL COUNCILER!

"STOP THE IRA SCUM!"-

SCOTS NF. Fight Back For Britain!

IRA bomb victim.

Newcastle

N.F. Directorate member and well-known South London activist Mick Turner sent **Front-line Action** a glowing report from Newcastle after spending a few days with the Geordie N.F. Mick's trip got off to a flying start when he was whisked away from the station and straight to a "small" meeting of 48 local members where he was very well-received as the guest speaker.

Over the next couple of days, Mick joined in various local activities, including postering and paper-selling at the Monument in the city centre, where an **N.F. News** sales team can be found at least three days a week. If every National Front unit put in the work that Newcastle do, our sales and influence would rocket. Mick found a sense of commitment and comradeship in Newcastle that is "second to none and only equalled by Birmingham", and would like to thank the committee and activists who made him so welcome.

Birmingham

OVER 40 people attended last month's inaugural meeting of a new N.F. unit in Brieley Hill. The meeting was addressed by two leading officials from Birmingham Branch, who have been doing a great job setting up new groups in the West Midlands area, including re-establishing an active unit in Walsall.

Birmingham N.F. also produced a special leaflet for distribution at a major pensioners convention held in the city at the end of September. Birmingham's good example of producing material aimed at specific interest groups should be followed by other N.F. units.

The growing success of such activities has stirred up local Reds to use violence to try to stop the N.F. But this tactic backfired on them last month. After a street meeting held near the mugger-dominated Bull Ring shopping centre, Pervais Khan, the Organiser of Birmingham "Workers Against Racism" (a front group for the lunatic pro-IRA Revolutionary Communist Party) incited a mob of 30 Blacks to attack 15 Young National Front activists. **The resulting battle was won hands down by the Y.N.F. lads, who are very well-known for their ability to defend their right to organise on the city's streets.**

The Birmingham committee sent out press statements about the abortive Red/Black attack, but although it had been witnessed by hundreds of shoppers, the local press once again chose to ignore a classic example of the kind of anti-White racial violence which occurs in Birmingham virtually every day.

WHAT IS TO BE DONE?

WITH the move to a fortnightly **N.F. News**, this new regular column aimed at N.F. Organisers and other officials will largely replace the Organisers' Bulletins which were previously posted out from Head Office.

All N.F. officials and activists must therefore make a special point of reading this column carefully as soon as they receive the latest paper. Confidential details such as times and assembly points for activities will be passed by word of mouth to local officials when their literature supplies are delivered. It is up to them to ensure that this information is passed on to their local colleagues quickly and accurately.

This method is obviously cheaper and more secure, and we hope that our other readers also find this insight into the organisation of the National Front an interesting addition to the paper.

*** Remember to have cash (NOT a cheque) on delivery/ collection of NF News, Nationalism Today and leaflets.**
No literature deliveries of next NF News as supplies available at the AGM.

*** New race leaflet out now. "Powder Keg Britain". Make sure your leafletters have supplies and that they are distributed quickly.**
What leaflets are needed for your area. Let us know now.

*** AGM & Remembrance Day. Book transport now.**

*** GENERAL ELECTION. Units who do not already have £750 in Election Fund must raise extra urgently if they intend to fight.**

*** Send a letter of support from your unit to our imprisoned Belfast Organiser, Andy McClorie (address on back page). And send 10% of your next collection to the NWA on the next lit. run.**

NO MORE BROTHERS WARS

The rape of Britain

BRITAIN'S countryside, with all its' historic beauty and diversity, is being steadily desecrated. Over 140,000 miles of hedgerows and between 30-50% of all ancient woodlands have been destroyed since the Second World War. More than 80 species of birdlife, 60 species of plantlife and 40 species of animal life are so endangered that they have to be protected by law. To make things worse, the places where they breed and feed are not similarly protected. A Site of Special Scientific Interest [SSSI] is being destroyed every single day.

Similarly, Britains fertile farmland is also being destroyed. Every year thousands of tons of poisonous chemicals - pesticides, herbicides, fungicides - are being poured into our soil and onto our crops. This not only poisons the food that we eat, but also weakens and destroys the resistance of crops so that the next yield will need even more poisonous chemicals to sustain it. On top of all this, these chemicals and other modern farming techniques, weaken and destroy the valuable nutricious top-soil that makes our land so fertile and full of life. The consequence of this is that sooner or later our farmland will be turned into a virtual desert, unable to grow food. Ethiopia is a good example of this.

As well as destroying our crops, the chemicals that are used to grow our 'modern' food are also destroying us. Studies have implicated at least 49 pesticides as possibly causing cancer, at least 31 as possibly causing birth defects and at least 61 as possibly causing genetic defects.

Is this the legacy that you are prepared to leave to your children? In this special 'green' report NF NEWS hopes to open more peoples' eyes to the environmental crisis. Many things can only be put right when the whole structure and values of society have been changed through National Revolution, but we can all start to fight to change things now, before it's too late. NF NEWS urges all of our readers to get involved with environmental and conservation groups now.

FIGHT FOR OUR FUTURE - GET INVOLVED - TAKE ACTION.

green murder

THE immense threat to our natural surroundings can not be over-stated. Unfortunately much of our nations wealth of natural beauty has already been destroyed or hideously disfigured. To show how serious this threat to our heritage and our future really is we have listed below a small number of examples of 'green murder'.

AVON
50% of unimproved meadows destroyed in 10 years.

BEDS & HUNTS
70% loss of wetlands in 25 years, 28% of SSSI's destroyed in 35 years, 88% of hedgerows lost in 30 years.

CUMBRIA
This county has over half the limestone pavement sites in the British Isles. Only 3% are now intact.

DEVON
20% woodland destroyed in 20 years. 67% rough grasslands & heath lost this century.

DUMFRIES & GALLOWAY
90% of heathland lost.

DURHAM
Areas of wildlife interest reduced by 80%.

HERTS & MIDDX
56% Ancient woods destroyed since 1850. 99.8% of mosslands destroyed by 1978.

KENT
40% of SSSI's destroyed.

LANCASHIRE
99.5% lowland bogs lost

LINCOLNSHIRE
Over 50% ancient grassland lost in 30 years.

NORFOLK
Only 3 Broads remain partly unpolluted. 45% of hedgerows lost in 40 years.

To be continued.

WE DEMAND LAND AND LIFE

THE family farm is an important way of life, for individuals and for the nation, that must be revived and preserved at all costs if our nation and our people are to have a future. No part of our society is closer to the soil, and therefore life itself, than the farming community. Without a strong and healthy farming community a society can not be healthy, and therefore the health and vitality of the nation suffers.

At a time when our people have increasingly lost their ancient contact with the soil and natural order, and when many people - especially the young - regard supermarket shelves and chemical processing plants as the source of their daily bread, the role of the organic family farm assumes new importance as a barrier of natural living against the encroachments of an artificial, plastic world of chemicals and materialism.

PRAIRIE FARMS

Today, about 80% of agricultural land belongs to large 'farms' with an average size of 300 acres, which is ever increasing in size. There are about 80,000 of these large farms which are mostly owned, and let, by financial institutions, multi-nationals and other giant corporate institutions and financial speculators. These large farms are leased to tenant managers who in turn employ farm-workers. The whole sordid structure is riddled with commercialism, from the super-rich absentee landlords, right down to the 9-5 labourers, who have no pride, motivation or stake in what they are doing. They are just wage-slaves, doing a job in which there can be no love.

It is hardly suprising that the land is treated with contempt, by a system of contempt. **Our land is being poisoned and gradually destroyed so that huge profits can be made out of artificially high yields. These short term profits for the absentee 'farmer' mean death and destruction for our land and our people.**

LIFE-BLOOD

But as explained earlier, farming is much more than a mere economic proposition. It is the life-blood of our nation, and therefore we should take back what is rightfully ours. Our land must be seized back from these financial parasites, without compensation, and returned to our people and nation.

These huge farming estates must be divided into family sized farms, and our people must be encouraged to return to the land. There are hundreds of thousands of our folk who would gladly return to the soil, caring for and nurturing their own piece of land. In 1949 there were 540,000 farmworkers in the British Isles - today, just a mere 175,000 as more and more people are driven away from the land by speculative, parasitic, absentee landlords. **Approximately 2000 farms cease to exist every year as, one by one they are swallowed up by the huge 'Prairie' farms, and the parasites that own them.**

LAND AND LIFE

Interest free loans from a Nationalised Banking System, and a long term educational programme of environmental and organic farming will enable our people to rebuild our nation from its roots. It is likely that the larger proportion of our people will not wish to return to the land, and in any case the land could not support them without it being environmentally damaging. But when we have cleared our towns and cities of the slums, inhuman tower blocks and high-rise flats, the countryside can return to the city in the form of open spaces, parks and city farms, to complement the clean, decent housing with gardens, which our sane and just financial system will have enabled us to build for all of our people.

We demand Land and Life.

Part of NF demo against parasitic landowners, Hill Samuel.

RACIAL REALITIES

IN the last issue of National Front News, we looked at why Repatriation was not only desirable for White and Coloured communities alike, but why it is essential if Race War is to be avoided.

Since then, a number of outbreaks of racial gang violence including in Barking, Streatham and Mitcham in London alone, have underlined the truth of the N.F. slogan: Repatriation or Race War! Millions of Britons understand that this is the only choice we have, but many are not sure that repatriation can be done.

So in this special feature, N.F. News takes a detailed look at the National Front's repatriation scheme, to prove beyond all doubt that it is financially and physically possible.

GOING HOME

There are approximately 5 million coloured immigrants and their offspring presently living in Britain. If we envisage a humane Repatriation Scheme, running over a period of, lets say, 10 years, then approximately 500,000 people a year would leave this country for their own lands. This figure is nearly equivalent to just 10,000 people a week, or nearly 1,500 per day.

A minimum of three chartered planes per day would be able to carry this amount of people to their destinations. An airport like Heathrow could easily cope with this.

FINANCIAL ASSISTANCE

Obviously each immigrant would be allowed to return with belongings that he owns, or the proceeds of any sale of belongings that he owned.

Each returning individual would also be given a Resettlement Grant of £1,000. This would apply whether they were members of a family or not, so for instance, a returning family could receive a Resettlement Grant of say £5,000.

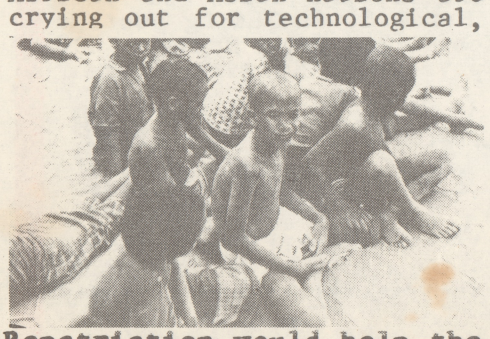
This all sounds like a lot of money until it is realised that we presently give away £1,000 Million in foreign aid every year. Resettlement Grants would total a mere £500 Million a year.

It must also be taken into account that the savings on welfare benefits, extra jobs available and vacant housing for the homeless, instead of temporary accomodation, would be enormous.

WILL THEY BE ACCEPTED ?

It is often cited thatthese returning immigrants, especially those born in Britain, would not be accepted in their own countries. This is difficult to believe as African and Asian nations are crying out for technological, industrial and medical help and knowledge. Many immigrants have been trained whilst visiting our land and would be welcomed in their own countries, if for no other reason than their expertise and experience. There is also no reason why coloured immigrants should not be trained in preperation for them returning to their homelands.

We would also be prepared to give financial aid to countries that welcome back the coloured peoples presently living in Britain.



Repatriation would help the starving.

WILL THEY WANT TO RETURN HOME ?

As reported in our last issue, an intense survey carried out by a West Indian run Repatriation Scheme, found that nearly all Young West Indians living in Britain, who had been born in the Caribbean, wanted to return there.

Amongst those born in Britain, only 15% wanted to return to their land of ethnic origin. But amongst those born in Britain, over 99% rejected European Society.

The most interesting fact uncovered is that, without exception, none of these people had been taught, or knew anything about their roots or the history of their peoples and nations. It must be obvious that if someone is to feel a sense of belonging, or Love, for his nation, then he must know and understand that nation.

Therefore, if Repatriation is to be achieved as humanely as possible, we must make it our duty to ensure that young immigrants are taught about their cultures, nations, languages and heritage, so that they feel an intense sense of pride, Love and belonging to their nations. This will ensure that they look forward to returning home.

Unfortunately, there is not a lot that we can do towards this aim under our present circumstances, but one thing that we can and must do is welcome and support immigrant communities in their struggle for seperate schooling, conducted by teachers of their own race, with a curriculum that suits their racial and ltural, and religious pirations.

What Britons Think About RACE-MIXING

IN the first part of our Racial Realities feature in our last issue, we took a look at what young West Indians thought of race-mixing. The results were very encouraging for White racialists. Now we take a look at what a cross-section of the British people think about race-mixing. The results of this poll are very similar, especially amongst youth, with whom the future lies.

A recent poll conducted by Gallop found that:

* Three out of five people think that Britain has become more racially prejudiced.

* Over half think that financial help should be given to Immigrants to allow them to return home

* Eight out of ten feel that racial tension has increased.

* 65% believe that Britain is in danger of being swamped by Coloured Immigrants.

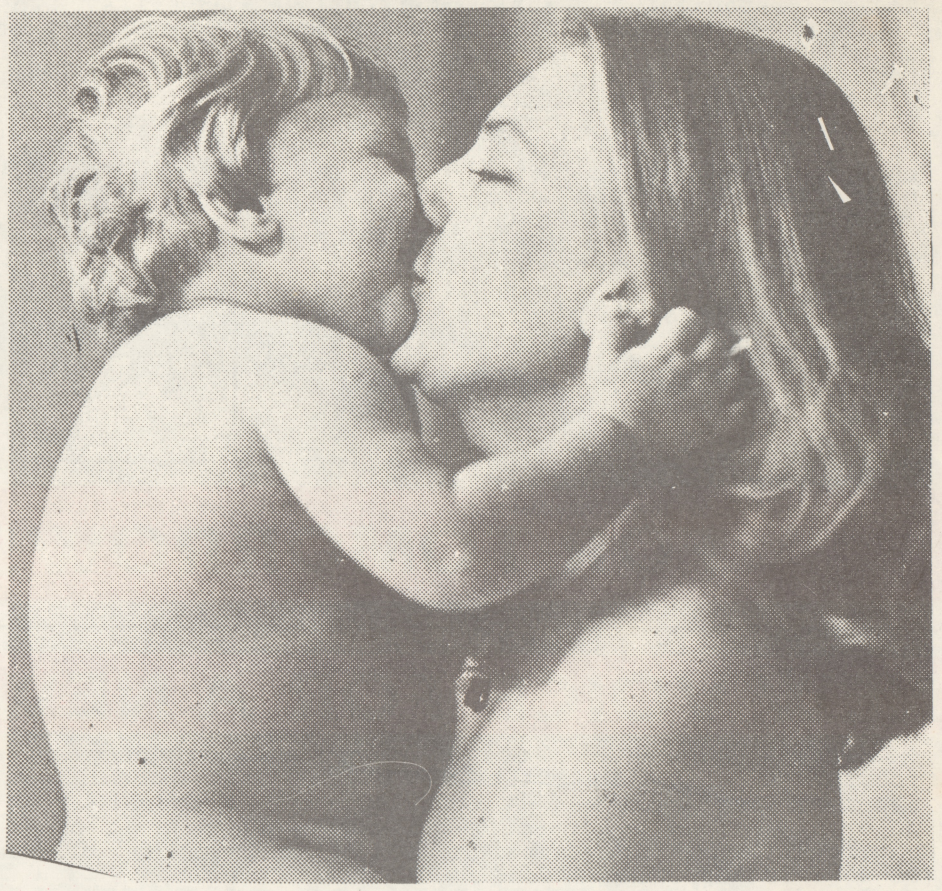
* 56% consider that Britain has been harmed by Immigration.

* Only 16% think that Britain has benefitted from Immigration.

As far as young Whites are concerned researchers have just finisbed "the world's most far-ranging survey into young people" and the results have alarmed the entire liberal Establishment. The Child Studies Youth Scan was begun 16 years ago, when every child born in Britain in a single week was surveyed.

Questionaires sent out to the same children as they near adulthood have shown them to hold many anti-liberal values such as support for capital punishment, but it is the multi-racialists who have had the biggest shock:

* From the 15,000 questioned, the Liverpool Echo reported that only 3% of today's 16 year olds care about Race Relations!



RACE-MIXERS are fond of quoting that there are more people who emigrate from this country every year than there are immigrants arriving.

What they do not say is that nearly all the immigrants are coloured, and that the majority of the emmigrants are White.

On top of this Population Censuses have revealed that the coloured immigrant birth rates are much higher than those of Whites.

For every 1000 White women there are 82 White births a year; for every 1000 West Indian women there are 108 births; and for every 1000 Asian women there are 200 births.

So it can be clearly seen that for the indigenous peoples of the British Isles to exist in the future, it is essential that coloured immigration is stopped and a phased and financially assisted Repatriation scheme is put into action.

TOMORROWS TECHNOLOGY

THE FUTURE really can belong to the National Front. That is the only conclusion possible from a realistic look at the crisis facing the Old Parties and their collapsing System. Evidence of the coming collapse looms on every side: there is growing racial tension and ever-worsening violence in Immigrant areas; unemployment spirals upwards as Britain's manufacturing industry is wiped out by foreign imports; Ulster slides towards civil war as resistance to Thatcher's sell-out is forced to greater militancy; the world banking system totters as Third World debtor nations threaten to default; share prices and the value of the pound have seen their biggest falls since the Crash of 1929.

One way or another, the end of the Old System is on its way, and with it will come the great opportunity to win over the British people to radical Nationalism. As the Old Parties lose their grip and millions lose their faith in a System that has wrecked their lives, the National Front's call for revolutionary changes to save our Race and Nation will grow more and more attractive. Make no mistake, our day is coming!

But one great question remains: will we be ready for it? Can we overcome growing State repression and build the efficient and nationwide political machine needed to get our message across and win over those millions? The answer to that question is in YOUR hands.

ASSETS AND MANPOWER

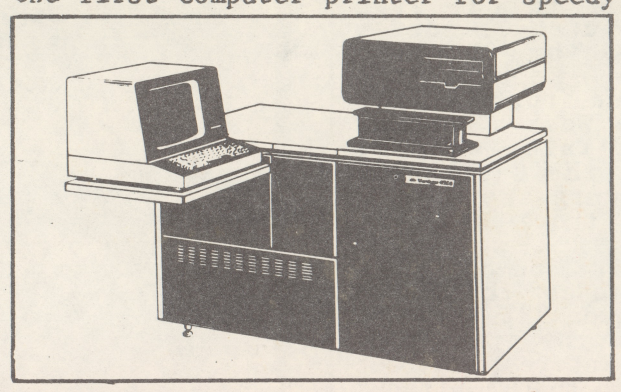
At present, the National Front does not have the assets, publicity machine or trained manpower to take advantage of the opportunities opening up to us. If this is allowed to continue, Britain is doomed.

But we are working hard to get over the obstacles. The National Directorate recently held a special planning conference which set targets for all the N.F.'s Departments. It was agreed to launch a **NEW TECHNOLOGY APPEAL** to raise **£10,000** to pay for the first wave of up-to-date equipment needed to make our entire operation more effective and much more professional.

In particular, we need a range of "high-tech" computer equipment to enable our best journalists to contribute up-to-the-minute reports to a fortnightly **N.F.News** even if they are hundreds of miles away from the editorial office. This will allow the N.F.'s Propaganda Department to leap from the 19th century into the 21st century overnight. All we need for this and for many other crucial improvements to our organisation is listed below:

* 2 self-correcting **electric typewriters** for faster office work.	**£800**
* 6 **two-way radios** for street activities	**£200**
* **Overhead projector** for training seminars	**£200**
* **Computerised typesetting network and printers** (4 sets)	**£1,800**
* 4 telephone **modems** to link up typesetting operation	**£600**
* **Photocopier** for enlarging/reducing artwork	**£3,000**
* 3 **video recorders** for copying training tapes	**£1,200**
* **Mobile phone** for administrative security and flexibility	**£1,500**
* Extra **burglar alarm systems** for NF assets	**£300**
* **Headliner** for faster and smarter headlines on publications	**£250**
* **Answer-phone plus new phone line** for public enquiries	**£150**
TOTAL URGENTLY NEEDED	**£10,000**

£10,000 is an ambitious target, but we must raise it - and we will. The initial response from Militants' Levy subscribers has already been astounding, bringing in over £1,100 in just a few weeks. One individual alone, who felt particularly strongly about the need for tighter security on activities, gave the money needed for the first two radios. We have also been able to buy the first of the two top quality electric typewriters and the first computer printer for speedy typesetting. Several units are now raising funds to pay for specific items on the N.F.'s "shopping list".



Even individuals who cannot go that far can help, because "every little counts". So please dig deep and give just a bit more than you can afford. Our next priorities are to obtain the overhead projector for the A.G.M., at least two more radios in time for Remembrance Day and a photocopier capable of enlarging and reducing artwork for our publications and to free our present main machine for use in Ulster. This will cost £3,200. We already have £320 left from earlier donations towards this, but there is still a long way to go.

The National Front's **NEW TECHNOLOGY FUND** has got off to a flying start. Now let's keep the momentum going. No money goes on wages, so every penny goes towards the assets which the N.F. needs so much. **Please use the form below to rush in your donation. Help us get the technology of tomorrow to build the movement of tomorrow - TODAY!**

Many thanks to those who have already made the generous donations which have got this vital appeal off to such a flying start. A full list of these people will, where appropriate, be published in the next **N.F. News.** Make sure you're in it!

I want to help the N F buy the technology it needs for further progress and I am therefore pleased to enclose a **crossed** cheque/postal order for £ .00 payable to National Front - Technology Fund.

Please do/do not print my initials and town in **NF News.**

FOR TOMORROWS MOVEMENT TODAY

NEW VOICE FOR A NEW AGE

FROM THIS issue, **N.F. News** will double in frequency to appear every fourteen days. This will make it the only fortnightly Nationalist paper in the country. It will give the National Front a far more powerful voice and for the first time will make it possible to carry out really effective campaigns of our own, instead of just commenting on what is happening around us.

More regular contact between the N.F.'s leadership, local units and supporters will greatly strengthen our organisation, so this is a very big step forward.

Don't miss out on this exciting phase in the growth of the N.F. Take out a subscription to National Front News **and keep in touch with the news and views that count.**

Please make cheques/P.O.s payable to **Nationalist Publications** and send your subscription by recorded delivery to **P O Box 41, Norwich, Norfolk, NR3 2AH.**

1 copy for 12 issues: £6.00 (Overseas £7.00)
5 copies for 12 issues: £14.00 (Overseas £17.00)

Please start my subscription to Britain's best-selling Nationalist newspaper from the next issue. I enclose £ ____

HOME AFFAIRS

cuts that kill

THOUSANDS of young people in Britain face agonizing deaths from heroin and cocaine addiction thanks to Tory spending cuts.

Between 1979 and 1984, the number of customs officers available at ports and airports to check for drugs fell by 1,039.

As a result, checks on passengers are down 30% to fewer than 1% of all travellers. Checks are down 65% on freight, and on private vehicles a terrifying 80%.

POURING IN

This means that only an estimated 13% - 20% of heroin coming into Britain is detected. The same is true of cocaine, which is now pouring in in such vast quantities that it is ceasing to be the plaything of the decadent rich and is starting to corrupt and destroy ordinary kids as well.

These worrying figures are contained in a report by the customs unions, the CPSA and the Society of Civil and Public Servants. The report UK: Drugs Unlimited, points out that there were already clear signs of a big increase in drugs' smuggling when the staff cuts began. This makes the Thatcher's penny-pinching cuts even more irresponsible.

Let us hope that the parents and families of the victims of these deadly drugs know who to thank for the misery they create.

IN THE WAKE OF CHENOBYL

A report issued by British engineers to the International Atomic Energy Agency during the end of September, warned that a Chernobyl style nuclear accident was likely to happen every 5 years.

The nuclear engineers also revealed that no provisions for such an accident had been made in Britain because "it couldn't happen here".

HINKLEY POINT B nuclear power station was temporarily closed down at the end of September because the cooling system broke down.

If readers would like to cast their minds back it was the cooling system that failed at Chernobyl.

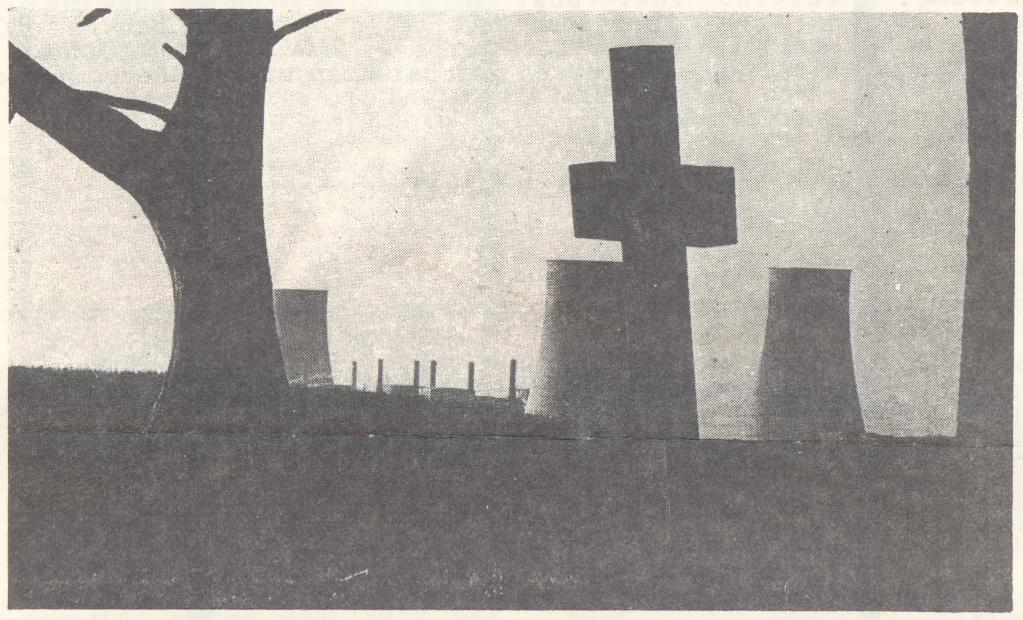
Children in Scotland and the North of England will develop thyroid cancer as a direct result of the Tories failure to give any warnings about the contamination of milk in the wake of the Chernobyl catastrophe.

Recent reports have stated that the incidence of cancer could easily increase by 40%.

On the 13th May, exactly one week after contaminated milk started reaching the shops,Tory Environment Secretary, Kenneth Baker stated that "it is safe to drink the milk. No special precautions are necessary".

Eventually when the Tories had to admit that dairy products and some meats were contaminated, it was found that under 12's in the North had a minimum radiation dose of 90% of the Tories stated 'safe limit'. Many received much higher levels.

Independent scientists and other experts had been warning for weeks of the almost certain results of the Chernobyl disaster on the British Isles. They had also given the alert when their own independent readings had shown increased radiation levels in Britain, but the Tories chose to ignore not only all the warnings, but also all of the facts..



caring capitalism

THE COLD Winter of 1985 brought a rise in deaths of almost 16,000 on the previous year, according to new Government statistics.The bulk of the deaths were caused by illnesses associated with cold, such as pneumonia and heart diseases.

These appalling figures of human suffering and neglect can largely be put down to the Tories disgusting system of severe weather payments.

For those who don't know, severe weather payments are granted to the needy, especially the old, when they need extra heating and lighting etc . The payments are supplied by the DHSS, and it all sounds fine in theory. The only problem is that to qualify for severe weather payments, the weather has to be below a certain temperature in your area for a specific amount of time.

Unfortunately, by the time any of our old folk qualify for payments, they are likely to have died from the cold.

Thats caring Capitalism for you.

don't drink the water

HINDUS and Sikhs living in Northhamptonshire want to perform their traditional funeral rite of scattering the ashes of their dead on the county's rivers.

They are no longer allowed to send the ashes back to be scattered on India's holy river Ganges because of a badly needed anti-pollution campaign there. The Anglia Water Authority is now considering the Asians' request.

WORLD AFFAIRS

AS CAPITALISM LURCHES WE AWAIT:

THE COLLAPSE OF 88

THE United States, and with it the corrupt financial system of the whole world, is tottering on the edge of economic collapse. Despite the media's impression of "a boom just around the corner", 31 of the 50 states of America are suffering a deep economic slump. The USA is being torn apart by a belt of deflation and collapse which stretches from coast to coast of the capitalist empire.

DEVASTATED

From the Dakotas to Georgia, suicide and violence has ripped into the farming community, which was already devastated by falling land values and the loss of export markets, drought and pressure from small agricultural banks themselves on the brink of collapse. For the first time in 27 years, the "bread-basket of the world" is having to import more food than it exports.

In the West, oil prices have collapsed, sending violent shivers through Texas and Oklahoma. The prices of all commodities, ranging from pork bellies in Chicago, to copper, aluminium and silver on the London Metal Exchange, are sharply down, sending the once rich mining towns into a deep depression.

The industrial Mid-West has fared no better. Generations of industry and business have been wiped out. Even the steel giants, the symbol of American industrial might, have started to go bankrupt.

FINANCIAL COLLAPSE

Equally as serious is the threat posed to the banking system. The world's largest financial institution, the Bank of America, made heavy losses in the first half of the year and is in deep trouble.

But more importantly, Brazil, Mexico and an ever-growing number of countries are likely to default on the payment of the enormous and usurious debts that they have been forced into running up. The fall in the price of oil and other raw materials has slashed the value of their National Products, leaving them unable even to keep up with interest payments, let alone repay their debts. If any one of the big debtors defaults, the international financial system will be brought to its knees.

The collapse is coming, that is a certainty. The only question is when? A good indication could come from the renowned economic forecasting firm Chase Econometrics. They estimate that 1987 will see the U.S. government forced to increase taxes by at least $11 billion.

Add to this the deflationary effect of the unavoidable $20 billion cut in U.S. government spending next year, and it is easy to see why some analysts are saying that the Collapse could easily come as early as 1988. Don't say you haven't been warned!

Burning Books

books that the state wants burnt

50, Pawsons Road, Croydon, Surrey

LEGION by Corneliu Codreanu. (£2.75 inc. post & packing). A translation of the Nest Leaders Manual - the training manual - of the Romanian Legionary Movement. This long awaited book is a must for every National Revolutionary.

NAME.....

ADDRESS.....

.....

THE POLITICAL SOLDIER by Derek Holland. (80p inc. post & packing). This important booklet is a must for all those who wish to fight for their beliefs. Are you prepared to? Do you know how?

NAME.....

ADDRESS.....

.....

YESTERDAY AND TOMORROW - roots of National Revolution. (£2.50 inc. post and packing). A series of important essays by various authors ranging from G.K. Chesterton and William Morris to Otto Strasser and Corneliu Codreanu. This book must be read by all National Revolutionaries.

NAME.....

ADDRESS.....

.....

AN ESSAY ON THE RESTORATION OF PROPERTY by Hilaire Belloc. (£2.50 inc. post & packing). In this excellent book Belloc advocates Distributism as the answer to the twin evils of Capitalism and Communism.

NAME.....

ADDRESS.....

.....

BLOOD AND SOIL by Anna Bramwell. (£14.00 inc. post & packing). A much acclaimed book that tells of the struggle of Walter Darre - one of Hitler's most feared and hated enemies - to bring radicalism and ruralism into the NSDAP.

NAME.....

ADDRESS.....

.....

MARCHING ON (£1.00 inc. post and packing). Excellent photo-feature book. Contains many inspiring pictures of the NF in action. Recommended.

NAME.....

ADDRESS.....

.....

THE MAN WHO WAS THURSDAY by G.K. Chesterton. (£2.80 inc. post & packing). G.K. unravels the novel in his own inventive and exuberant way and then uses this nightmare of paradox and surprise to probe the mysteries of human behaviour and belief.

NAME.....

ADDRESS.....

.....

THE NAPOLEON OF NOTTING HILL by G.K. Chesterton. (£2.50 inc. post & packing). An important satirical attack on Imperialism and an impassioned plea for the rights of small nations as bulwarks against the grey conformity of the modern world.

NAME.....

ADDRESS.....

.....

LET BRITAIN LIVE (80p inc. post and packing) A brilliant booklet which explains all the NF's policies. A must for every NF member and supporter!

NAME.....

ADDRESS.....

.....

NEW NATION (70p inc. post and packing). Ideological magazine on the NF. In depth reading. Several different issues available, whilst stocks last.

NAME.....

ADDRESS.....

.....

NEW DAWN (30p inc. post and packing) The Revolutionary Voice of British Youth. Back issues ONLY. (Bulk orders available from **Beacon Books).**

NAME.....

ADDRESS.....

.....

RACIAL INTERGRATION - by H B Isherwood. (70p inc. post and packing). Brilliant book which gives the true facts and figures about Race. A must for all Patriots!

NAME.....

ADDRESS.....

.....

WHITE NOISE (35p inc. post and packing) If you like Patriotic bands like **Skrewdriver** and **Brutal Attack**, this is the paper for you! Interviews, news and gossip. (Bulk orders on request).

NAME.....

ADDRESS.....

.....

ATTEMPTED MURDER (£1.30 inc. post and packing) A vital 80 page booklet for every Revolutionary Nationalist which goes behind the scenes to give a fully detailed account of the State/ Reactionary plot against the NF. Complete with photos and copies of documentary evidence.

NAME.....

ADDRESS.....

134, Templemore Avenue, Belfast.

COMMUNITY ACTION

COMMUNITY ACTION seeks to help the National Front sink local roots. Indeed, we see this as a very small step along the road to establishing a whole series of NF Advice Centres throughout the British Isles.

We want to expose local council corruption and incompetence, fight closures of schools, factories and hospitals, and campaign for decent housing and social services for our people. We also carry lots of advice on what you are entitled to in the way of benefits and consumer rights etc., as the powers that be usually try to suppress such information.

We also wish to generate a climate of self-help and community pride and care which is sadly being attacked and destroyed.

If any NF News readers think that **Community Action** should focus on problems or initiatives in their area, or promote, give advice on, or help their campaigns, please contact us, and send us your community news and any press cuttings.

FIGHT THE CLOSURE

THE Barnbow Royal Ordnance factory in Leeds is threatened with closure. This would result in the loss of 1400 jobs and the decimation of the Garforth, Seacroft and Cross Gates areas of Leeds from which the workforce is drawn. Local businesses, shops, pubs, cafes and engineering suppliers all have a large vested interest in the survival of the factory, and will die with its closure.

The Tories have pulled out of an order for Challanger tanks worth £100 million, and decided that it should go to tender after top level pressure from a private firm, Vickers, even though Barnbow has the expertise and experience of Challengers.

The workforce are determined to fight for their livelihood and that of their families and communities. **The NF must make sure that the fight is conducted effectively. FIGHT THE CLOSURES.**

Barnbow gates open at the end of the day, but workers fear they may close for good.

PROTECTION FOR BATTERED WIVES (OR HUSBANDS)

Q. What can I do if my husband is using violence or threatening violence against me or my children?

A. You can apply to the Courts to get either a Protection or Exclusion Order or both. You do not need a separation.

Q. I am not married, but the man I live with is violent. Is there anything I can do?

A. Yes. A woman in your situation (a co-habitee or common -law wife) has the same rights to Protection and Exclusion Orders as a married woman.

Q. How long does it take to get these orders? How long do they last?

A. There is an emergency procedure available for both Protection and Exclusion Orders which means you should be able to obtain them within 24 hours. However, this may depend on your solicitor. Interim (emergency) Protection and Exclusion Orders can be granted without your partner being present in court. These emergency orders will last for up to 5 weeks and can be renewed at a full hearing, if necessary. The Exclusion Order will last for a further six months whilst the Protection Order can last for longer than six months.

Q. What happens if my partner breaks the orders threatening or using violence or coming to my home?

A. Copies of the orders are sent to your local Police station and the Police have a clear role in enforcing breaches of Protection and Exclusion Orders. If an order is broken, the man should be removed from your home by the Police, arrested and brought to a Police Station, charged and kept in custody until the next available court.

CRUELTY FREE CANCER RESEARCH

CANCER is an emotive subject and because of the fear it creates in the public, the major cancer charities are able to collect millions of pounds every year. Much of this is used in research which tortures living animals.

In a typical year, 176,311 animals were tortured in experiments concerned with cancer.This was despite the overwhelming evidence that the majority of cancers are preventable and that all these barbaric experiments have led to very little progress in treating the major forms of cancer.

INNOCENT

If you are worried about cancer or want to help its victims, but do not believe that thousands of innocent animals should be tortured in trying to find a cure, then there are two important cancer research charities you can contact for information.

One is the **British Cancer Control Society, 75 St. Mary's Road, Market Harborough, Leics, LE16 7DX.** Its objects are to promote the dissemination of information about cancer prevention and holistic cancer care, and to provide financial support for organisations concerned with the use of natural, non-toxic cancer treatments.

The second is **Quest for a Test for Cancer, Woodbury, Harlow Road, Roydon, Essex, CM19 5HF**, which aims to develop routine screening tests to detect cancers before they become malignant. It supports research at various universities on human tissue samples.

Such research into the natural way to **prevent** cancer rather than treating victims with expensive drugs does not hold much appeal to the big drugs' companies, so it is very important that ordinary people do what they can to help these worthy organ-isations.

Have you a gripe about your local council? Is your local school, factory or hospital being closed down? Do you live in bad housing conditions? Then contact your local NF Organiser, **NF News** papersellers, or **Community Action**, and we'll fight on your behalf. (Please enclose a stamped self-addressed envelope for a reply).

ISSUE 80

INTERNMENT BY REMAND

MORE THAN ten years after the Westminster government officially ended internment in Ulster, hundreds of Loyalist militants still face internment for their beliefs. Six years since the Westminster government officially repealed its powers of detention, hundreds of Loyalists are still being detained without trial. Although the government officially doesn't do such things any more, the truth is that INTERNMENT BY REMAND is being used more and more against opponents of the Anglo-Irish sell-out.

Since the official ending of internment, the Northern Ireland Office (NIO) has operated a "criminalisation" policy. This asks us to believe that anyone in gaol is there because he or she has been found guilty of a specific criminal offence. Ulster supposedly has no political prisoners!

TRUTH

But in fact the truth is quite different. Many Loyalist activists have been arrested on flimsy or non-existent evidence and are then remanded in custody for months or even years before their cases come to court. Innocent men who have spent two years in prison on remand have been released for lack of any prosecution case against them at the start of their trial.

This utterly cynical manipulation of the law is not done in the interests of justice or to protect society from criminals. It is merely a device to keep prominent activists out of circulation for as long as possible. This trick has become much more common since the extent of popular Ulster resistance to the evil Hillsborough sell-out became so strong. The government's aim is to lock up or intimidate enough Loyalists to weaken our campaign over the first year of the Agreement. Once it has survived a symbolic year, Thatcher and the Irish government will start to implement more of its secret clauses, then launch another wave of arrests against their opponents.

TRUMPED-UP CHARGES

Every effective Loyalist group has suffered from "internment by remand". Perhaps the most blatant example was the arrest of over 20 key figures in the Ulster Defence Association the day before major protests against march bans were due in Portadown. But the repression has been directed against us all and the National Front has not emerged unscathed. Like the Ulster Clubs and the D.U.P., we have members languishing in the squalid conditions of Crumlin Road Prison awaiting trial on trumped-up charges.

The Organiser of Belfast N.F., Andy McClorie, has been remanded in custody since Easter with five local members and young supporters. They, like most of the Loyalist prisoners inside with them, are the victims of an RUC frame-up. Mr. McClorie, a school-teacher, now faces ridiculous petrol-bombing charges. So too does his cell-mate, a radical D.U.P. councillor! The fact that such community figures have been rounded up shows very clearly that this is a cynical campaign by the NIO to deprive Ulster folk of local political leadership in the fight against Thatcher's sell-out.

In order to add to the intimidation caused by such arrests and by brutal dawn raids, conditions for remand prisoners in Crumlin Road are kept deliberately bad. A welcome show of real Loyalist unity did, however, result from this when prisoners from the different groups launched a joint protest against the disgusting conditions. The part played by the N.F. men in this has helped to establish their position as genuine Loyalist political prisoners rather than criminals.

SACRIFICES

NATIONAL FRONT NEWS salutes the sacrifices made by Andy McClorie and his fellow N.F. internees, and by all the victims of Thatcher's internment-by-remand policy. We call on all Loyalist publications to do their utmost to publicise what is going on and to alert the public to the plight of Britain's hidden political prisoners.

Write a letter of support to 1246 Andy McClorie, C Wing, HMP Belfast, Crumlin Road, Belfast 14, Ulster. And give your full support to the Loyalist prisoners' welfare groups listed below. Remember: they're inside for YOU - you're outside for THEM.

SUPPORT ALL LOYALIST PRISONERS! THEIR ONLY CRIME IS LOYALTY!
